FILTRATION FOR POWERSPORTS.

Air and oil filtration for ATV, UTV and SSV. Designed for powersports, not adapted from automotive. Every article is listed against the OE number it replaces.

12	**81**	**1 600+**	**70+**
OE NUMBERS REPLACED	MACHINES ON ONE FILTER	FILTERS WE CAN SUPPLY	MAKES COVERED

MACRO // PLEAT STRUCTURE · A1 COTTON GAUZE

WE DON'T ADAPT AUTOMOTIVE SOLUTIONS. WE DESIGN EXCLUSIVELY FOR POWERSPORTS.

RINFLO makes air and oil filters for ATV, UTV and SSV, and nothing else. A machine that works in dust, mud, water and snow, at low speed and high load, asks more of a filter than a car on tarmac. So we start from the machine, not from an automotive catalogue.

A filter is bought by being looked up. Every RINFLO article is listed against the OE number it replaces, so the answer is one line in a table: original number on the left, RINFLO on the right.

Claims are carried by numbers. Where a figure is not published, we say so.

01

MEASURED

Every RINFLO starts with the OE part it replaces, measured and drawn in CAD.

02

ENGINEERED

Built from day one for one thing: powersports. Not borrowed from a car catalogue.

03

TESTED

The filter material is tested for air permeability. Each finished unit is tested individually before shipping.

100%	1:1	12	1 600+
POWERSPORTS FOCUS	EVERY UNIT TESTED	OE NUMBERS REPLACED	FILTERS WE CAN SUPPLY

TWO SERIES. ONE FOCUS.

Each series is engineered for one application: A1 for the air the engine breathes, O1 for the oil that protects it.

IN PRODUCTION

A1 AIR FILTERS

Cotton gauze media. Washable and reusable. Pre-filter mesh included in the box.

- 9 ARTICLES · CAN-AM AND CFMOTO
- 2 235.8 L/M²/S AIR PERMEABILITY
- WASHED, OILED AND REFITTED, NOT REPLACED

IN PRODUCTION

O1 OIL FILTERS

Built to OE specification. Gaskets included.

- 1 ARTICLE · 3 OE NUMBERS
- CAN-AM G2 · HISUN
- EACH UNIT TESTED BEFORE IT SHIPS

ATV

ALL-TERRAIN VEHICLES

Dust, mud and water at low speed and high load. Filtration that keeps flowing when the trail doesn't.

UTV

UTILITY VEHICLES

Long hours, heavy loads, work conditions. Engine protection that holds up across long service intervals.

SSV

SIDE-BY-SIDE VEHICLES

Sport and race side-by-sides. High airflow with low restriction, for the power the engine was built for.

OE CROSS-REFERENCE

Look up the original number. Read across.

EXACTLY AS PUBLISHED

OE numbers are transcribed exactly as the manufacturer publishes them. CFMOTO uses a different number of digits in different part numbers: a shorter suffix is not an error and is never padded.

ONE NUMBER, 81 MACHINES

55716077 replaces one OE number and fits 81 machines across CFORCE, UFORCE, ZFORCE and X8, model years 2013 to 2025.

NOT INTERCHANGEABLE

Two ZFORCE 950 articles exist: 55716064 fits Gen 2, 55716088 fits H.O. and U10 PRO. Check the OE number before ordering.

FIND YOUR MACHINE

Model by model, from the fitment data. When two versions share a name, the model code on the frame plate decides.

A1 WITH PRE-FILTER MESH

A1 AIR FILTERS

COTTON GAUZE · WASHABLE · REUSABLE · PRE-FILTER MESH INCLUDED

2 235.8

L/m²/s · air permeability, A1 media

Air permeability is the volume of air that passes through one square metre of filter material per second at a fixed pressure drop. Higher means the engine works less to breathe. Measured on the A1 cotton gauze to ASTM D737. The values apply to the A1 media only, not to O1.

AIR PERMEABILITY	**2 235.8 L/m²/s (440 cfm/ft²)**
PRESSURE DROP	**0.79 inH_2O (20 mmH_2O, approx. 200 Pa)**
TEST STANDARD	**ASTM D737**
TEST AREA	**2 in (50 mm) diameter**
FILTER MEDIA	**Cotton gauze, multi-layer**
MAINTENANCE	**Washable and reusable**
PRE-FILTER	**Mesh included**

MEDIA

COTTON GAUZE

Dirt stays on the gauze, clean air goes to the engine. High flow with low restriction.

PRE-FILTER

MESH INCLUDED

A pre-filter mesh comes in the box. It takes the coarse dust and mud before it reaches the gauze.

SERVICE

WASHABLE

Clean, re-oil and refit. One filter for many service intervals instead of a stack of paper elements.

QUALITY

TESTED 1:1

Each unit is tested individually before it ships.

NINE AIR FILTERS.

Every article comes with its pre-filter mesh, and every one is listed against the OE number it replaces.

A1 · IN STOCK

Drawings for 55716013, 55716063, 55716064 and 55716067 are not published. Outer Ø of a tapered filter is measured at the base.

WASH. DRY. OIL. REFIT.

A1 cotton gauze is cleaned and reused, not thrown away. Four steps put the filter back to work.

01

WASH

Take off the pre-filter mesh. Apply a cleaner made for cotton gauze filters and rinse with low-pressure water, from the clean side out.

02

DRY

Let the filter dry by itself. No compressed air and no heat: both damage the gauze.

03

OIL

Oil the pleats evenly with filter oil and let it wick through. The oil is what holds the fine dust.

04

REFIT

Refit the filter and the pre-filter mesh, and check that the seal sits all the way round.

WHEN

Inspect the filter at every service, and more often in dust. Clean it when the gauze is covered and its colour no longer shows.

WHAT YOU NEED

A cleaner and a filter oil made for cotton gauze filters. Nothing else: no petrol, no solvents, no engine oil.

01 OIL FILTER
44716011

One article, three OE numbers. Built to the original specification and supplied with the gaskets the service calls for.

OE NUMBER	MAKE	PLATFORM
420256188	Can-Am	G2

FINDING YOUR FILTER

01

FIND THE NUMBER

The OE number is printed on the old filter, on its box, or in the parts list for your machine.

02

READ ACROSS

Look it up in the cross-reference on page 4. One line gives you the RINFLO number.

03

NO MATCH? ASK US

With over 1 600 filters in the programme, the answer is very likely yes. See the next spread.

BUILT AROUND THE RIDER.

A customer service company first, and a parts company second.

FUELING FREEDOM & ADVENTURE.

Lionparts began in 2014 as an online retailer serving powersports riders. From the start we believed that finding the right part and getting the right help belong to the same experience.

Over the years we have grown beyond buying from the large distributors. We work long-term with established brands, independent manufacturers and specialists whose products do not always fit the traditional distribution model, and we connect them with the riders and dealers who need them.

Since 2025 we have been growing into Canada and Europe, with people on three continents and the same idea that built the business: service first, parts second.

Today the catalogue holds more than 200,000 products for ATV, UTV, motorcycle, snowmobile and marine. We ship more than 100,000 orders a year from our own fulfilment centre in upstate New York and from stock we buy ahead and position in warehouses across the country.

Alongside the brands we represent, we develop our own product lines, including EMBERON, KINTORQUE, RINFLO and UNBEHAVED. Each serves its own corner of the powersports market, shaped by what riders actually need and priced to give practical value.

Dealers welcome. Through our invite-only dealer programme we help dealerships, especially small and midsize ones, reach a broad range with competitive terms and support that answers.
