UNBEHAVED

NO STOCK LOOKS. NO COMPROMISES. NO APOLOGIES.

Your stock cap is plastic with a foam ring. This is 6061 billet with an NBR seal. The upgrade is obvious.

CONCEIVED IN SWEDEN.
OWNED IN THE US.

MACHINED

Every part starts as solid billet and is CNC-machined to shape. No casting, no moulding. What you hold is what the cutter left.

FINISHED

Five colours: black, gunmetal, blue, orange, red. Fuel caps, airbox lid and brake cap are hard anodized, rough matte: a conversion of the surface, not a coating. It does not chip, flake or peel.

ETCHED

The badger and the wordmark are laser-etched into the surface. Never printed. It cannot wear off, because it is not on the part. It is in it.

SIX PARTS. FIVE COLOURS.

CNC-machined, laser-etched and fitted to the stock mounting. Nothing needs a bracket or an adapter. Every part comes in black, gunmetal, blue, orange and red.

FITMENT

MACHINE FIRST, PART SECOND.

Fuel caps come in pairs: odd numbers for BRP machines, even numbers for CFMOTO and Segway. Every part against every machine, with model years, on page 13.

FIVE COLOURS. SAME METAL.

Every part in the range now comes in five colours. **Pick the part, then the colour.** The colour is the last two letters of the article number.

BUILT AROUND THE RIDER.

A customer service company first, and a parts company second.

FUELING FREEDOM & ADVENTURE.

Lionparts began in 2014 as an online retailer serving powersports riders. From the start we believed that finding the right part and getting the right help belong to the same experience.

Over the years we have grown beyond buying from the large distributors. We work long-term with established brands, independent manufacturers and specialists whose products do not always fit the traditional distribution model, and we connect them with the riders and dealers who need them.

Since 2025 we have been growing into Canada and Europe, with people on three continents and the same idea that built the business: service first, parts second.

Today the catalogue holds more than 200,000 products for ATV, UTV, motorcycle, snowmobile and marine. We ship more than 100,000 orders a year from our own fulfilment centre in upstate New York and from stock we buy ahead and position in warehouses across the country.

Alongside the brands we represent, we develop our own product lines, including EMBERON, KINTORQUE, RINFLO and UNBEHAVED. Each serves its own corner of the powersports market, shaped by what riders actually need and priced to give practical value.

Dealers welcome. Through our invite-only dealer programme we help dealerships, especially small and midsize ones, reach a broad range with competitive terms and support that answers.
