ATV AND UTV WINCHES

PRODUCT CATALOGUE
EDITION 2027 · Q1

PULL IT OUT. EVERY TIME.

17	3–9k	69	IP67
WINCHES, SEVEN RATINGS	LB LINE PULL	MOUNT PLATES	SEALED V3 BODY

TWENTY YEARS OF VIPER

BUILT TO GET YOU UNSTUCK.

Two winch series, one mounting system, and the accessories to wire it up and move it between machines.

Viper is the winch line from MotoAlliance, an American powersports company, and it has been pulling ATVs, UTVs and side-by-sides out of mud, snow and ditches for twenty years. The range is built around one idea: a winch for every machine, and a plate that bolts it to the frame.

Every winch has a sealed planetary metal gear train, a permanent-magnet motor and an automatic brake that holds 100 % of the rated load. Every plate is laser cut and shaped for one machine, and uses the strength of the frame.

MIDNIGHT

Steel body · 3 000 and 4 500 lb · synthetic line or steel cable

V3

Sealed aluminium body, IP67 · 4 500 to 9 000 lb · wireless remote · black, blue or red line

69 PLATES

Arctic Cat to Yamaha, one plate per machine, hardware included

TWO SERIES. SEVENTEEN WINCHES.

Midnight on a steel body, V3 on a sealed aluminium body. Seven pull ratings, each in the line or colour that suits the machine.

MIDNIGHT

STEEL BODY · CAM-ACTIVATED CLUTCH

3 000	Standard spool	MD3000_BK · MD3000_ST
4 500	Standard spool	MD4500_BK · MD4500_ST

Synthetic line with aluminium hawse, or steel cable with roller fairlead. The 4 500 adds a wireless remote.

V3

ALUMINIUM BODY · IP67 · SLIDING RING GEAR

4 500	Standard spool	V34500_BK_NEW · V34500_BL · V34500_RE
4 500	Wide spool	V34500SE_BK · V34500SE_BL · V34500SE_RE
6 000	Standard spool	V36000_BK · V36000_BL · V36000_RE
6 000	Wide spool	V36000SE_BK · V36000SE_BL · V36000SE_RE
9 000	Standard spool	V39000_BK

Wireless remote on its own frequency with every unit. SE is the wide spool: more line, wide-pattern plate.

EVERY VIPER ON ONE SCALE.

Rated line pull on a common axis, with the figures that decide between two winches of the same pull: gear reduction, motor, line and weight.

MODEL	RATED LINE PULL, LB	GEAR RATIO	MOTOR	LINE	WEIGHT

LINE COLOURS	Black	Black	Black, Blue, Red	Black, Blue, Red	Black, Blue, Red	Black, Blue, Red	Black

Rated line pull is measured on the first layer of line. The V3 9000 takes M10 hardware on the standard pattern. Midnight steel-cable versions ship with a roller fairlead instead of the hawse.

CHOOSE THE PULL. THEN THE PATTERN.

1
RATED PULL ABOVE THE LOAD

Rated line pull is measured on the first layer of line and falls as the drum fills. Choose a winch above the job, not at it.

2
ONE AND A HALF TIMES

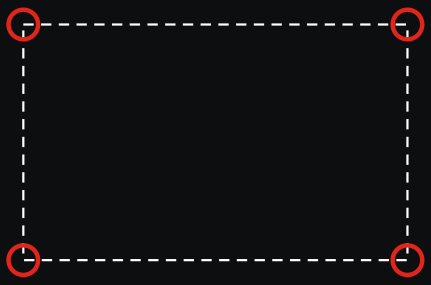

The common rule is a rated pull of at least one and a half times the machine's gross weight. Mud, a loaded rack and a slope all add to it.

3
PULL IN STAGES

A winch is a short-duty machine. At rated pull the Midnight 4500 draws 308 A: keep the engine running and make long pulls in stages.

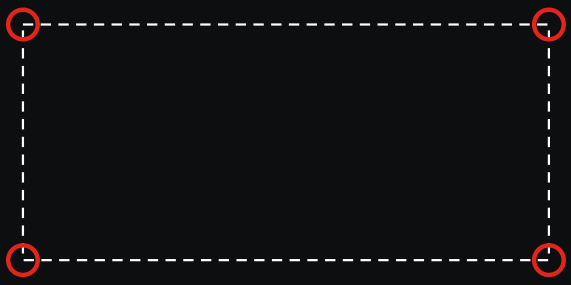

TWO BOLT PATTERNS. NO IN-BETWEEN.

STANDARD

3 × 4 7/8 in (76 × 123.83 mm)

WIDE

3 × 6.67 in (76 × 169.42 mm)

Every Viper winch and plate uses one of two four-bolt patterns. A wide-spool (SE) winch needs a plate cut for the wide pattern; 68 of the 69 plates take the standard pattern, and 25 of them are cut for both.

SYNTHETIC LINE

Light, floats, and stores far less energy than cable under load. Runs through an aluminium hawse. Standard on every V3 and on the Midnight _BK versions.

STEEL CABLE

Abrasion resistant, on a roller fairlead. Available on the Midnight 3000 and 4500 as the _ST versions.

MIDNIGHT

STEEL BODY · CAM-ACTIVATED CLUTCH

The workhorse for snow plowing and mud. A steel housing, a sealed planetary metal gear train, an automatic brake and stainless hardware. The only Viper series with published motor output, line speed and current draw.

3 000

LB · 1 361 KG

BOLT PATTERN	3 × 4 7/8 in (76 × 123.83 mm)

CURRENT DRAW AND LINE SPEED

LOW, TIGHT, OUT OF THE WAY.

A V3 on its plate under a sport UTV. Recessed terminals and a short body let it sit where there is no room to spare.

V3. SEALED.

The newest Viper: a modern, compact aluminium winch with recessed terminals for next-generation machines, four pull ratings and three line colours.

IP67
Sealed against dust and water

ALU
Corrosion-resistant aluminium body, matte finish

REMOTE
Wireless remote on its own frequency, with every unit

100 %
Automatic brake, full load holding

IN THE BOX, EVERY V3

- Synthetic line, pre-spooled
- Aluminium hawse fairlead
- Wireless remote, own frequency
- Rocker handlebar switch
- Contactor and wiring, 6 gauge
- Clevis hook
- Two-piece line stopper
- Hand saver strap
- Stainless hardware and instructions

MATCH THE MACHINE.

The V3 4500, 4500 SE, 6000 and 6000 SE come with black, blue or red synthetic line, each its own article. The 9000 comes in black.

BLACK SYNTHETIC LINE, 1/2 IN

CHECK THE MOUNT FIRST

The 9000 uses M10 hardware rather than M8, and its body is larger than the rest of the V3 range. Make sure the plate takes M10 and that the machine has room for the body before ordering.

DRUM	Standard spool
BOLT PATTERN	3 × 4 7/8 in (76 × 123.83 mm)
FASTENERS	M10, four
GEAR RATIO	*not published*
MOTOR	12 V DC, sealed permanent magnet, output not published
CLUTCH	Sliding ring gear
LINE SUPPLIED	40 ft (12.2 m) × 1/2 in (12.7 mm)
LINE RATED TO	*not published*
FAIRLEAD	Aluminium hawse
CONTROL	Handlebar switch and wireless remote
SEALING	IP67
DIMENSIONS L × H × D	17 × 6 × 5.7 in (432 × 152 × 146 mm)
WEIGHT	34 lb (15.4 kg)

The top of the Viper range, with the heaviest line: 40 ft of half-inch synthetic. Shipped with the same kit as every V3, wireless remote included.

AROUND THE WINCH.

Fairleads, a receiver mount, conversion kits for the Wolverine RMAX and quick-connect harnesses to move one winch between machines.

MA11605- STANDARD

ROLLER FAIRLEAD, STANDARD

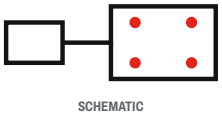

Zinc-plated rollers on Delrin bushings, industrial powder-coated frame, hardware included. For steel cable; it reduces wear and helps on angled pulls.

MA11605W WIDE

ROLLER FAIRLEAD, WIDE

The same rollers and bushings on the wide frame, 6 3/8 × 2 1/2 in (162 × 64 mm), for wide-spool winches with steel cable. Hardware included.

MA11970 STANDARD WIDE

2 IN RECEIVER MOUNT

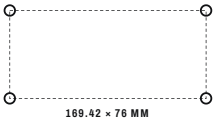

Multi-mount cradle for standard and wide patterns, up to 6 000 lb: move one winch between front and rear receivers. Needs a 2 in receiver and a fairlead bracket (not included).

MA11838 WIDE

RMAX CONVERSION, HAWSE

For the Yamaha Wolverine RMAX 2021–2026, which has a factory winch mount for wide-pattern winches only. No plate needed.

MA11838_ST WIDE

RMAX CONVERSION, ROLLER

As MA11838, with a roller fairlead in place of the hawse, for steel cable on the Wolverine RMAX.

HAWSE OR ROLLER

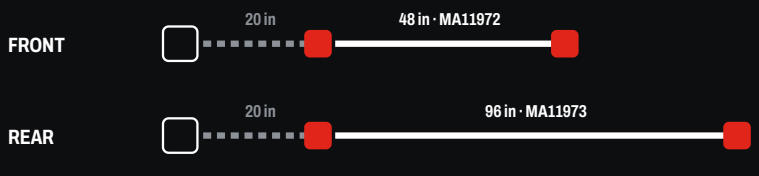

MATCH THE FAIRLEAD TO THE LINE

A hawse for synthetic line, a roller for steel cable. Every V3 and every Midnight _BK ships with an aluminium hawse; the _ST versions come with a roller.

QUICK-CONNECT HARNESSES

MA11972 48 in · MA11973 96 in

Sealed, gender-neutral plugs: move the winch without rewiring. Two harnesses are needed for every installation.

Battery left, winch right. Front and rear can share one winch.

ONE PLATE. ONE MACHINE.

Viper mount plates are laser cut and shaped by computer-controlled equipment for a precise fit on one machine, and they use the strength of the frame to make the most of the winch.

Black industrial powder coat, mounting hardware and detailed instructions in every box. Plate and winch are ordered separately: only the bolt pattern has to agree.

1
FIND THE MACHINE
Make, model and year in the fitment schedule.

2
READ THE PLATE
One plate per machine, hardware and instructions included.

3
CHECK THE PATTERN
Standard, or standard and wide. SE winches need a wide plate.

4
PICK THE PULL
Any Viper on that pattern fits. About 1.5 × the machine.

READING A CARD

Article number, the bolt patterns the plate is cut for, make, model years and the models it fits. Every machine, year by year, is in the fitment schedule that follows.

A red dot marks a plate with a note; the notes are listed under the schedule. A plate shown as a bolt pattern has no photo yet.

NOTES

[1] Four-seat Commander: an extended wiring kit may be needed to reach the battery.

[2] Works with the stock bumper only.

[3] An extended wiring kit to reach the battery is recommended.

[4] With larger than stock tyres the winch may rub on the tyres when turning.

[5] No bolt pattern published at source. Confirm before ordering.

[6] Does not fit the RTV-X series.

[7] The source also states that only 3 × 4.5 in pattern winches fit. Confirm before ordering.

[8] Needs a universal fairlead mount plate, which is not part of this range.

[9] Does not fit the 2013–2015 Ranger 900 with Extreme bumper.

[10] Machines without accessory bumper.

[11] Does not fit the 2017 Sportsman 850 High Lifter Edition.

[12] A standard-spool winch needs a wide-to-standard spool converter, which is not part of this range.

READY WHEN YOU ARE.

01

FIT IT

Every plate comes with mounting hardware and detailed instructions, and every winch with its wiring, contactor and installation hardware.

Not sure which plate fits? Send make, model and year, or a photo of the front of the machine. We answer which plate and winch to order.

help@lionparts.com

02

WARRANTY

Viper winches carry a limited one-year warranty, and six months on the rope. Keep the proof of purchase; claims go through the shop you bought from.

Statutory consumer rights are not affected.

03

WHERE TO BUY

Viper is sold by Lionparts, online and through our dealers. Scan for every brand we carry.

LIONPARTS.COM
All our brands

BUILT AROUND THE RIDER.

A customer service company first, and a parts company second.

FUELING FREEDOM & ADVENTURE.

Lionparts began in 2014 as an online retailer serving powersports riders. From the start we believed that finding the right part and getting the right help belong to the same experience.

Over the years we have grown beyond buying from the large distributors. We work long-term with established brands, independent manufacturers and specialists whose products do not always fit the traditional distribution model, and we connect them with the riders and dealers who need them.

Since 2025 we have been growing into Canada and Europe, with people on three continents and the same idea that built the business: service first, parts second.

Today the catalogue holds more than 200,000 products for ATV, UTV, motorcycle, snowmobile and marine. We ship more than 100,000 orders a year from our own fulfilment centre in upstate New York and from stock we buy ahead and position in warehouses across the country.

Alongside the brands we represent, we develop our own product lines, including EMBERON, KINTORQUE, RINFLO and UNBEHAVED. Each serves its own corner of the powersports market, shaped by what riders actually need and priced to give practical value.

Dealers welcome. Through our invite-only dealer programme we help dealerships, especially small and midsize ones, reach a broad range with competitive terms and support that answers.
